ABOUT

We are a bespoke bar and entertainment company based in Dundee providing event packages throughout Scotland for weddings, corporate events, special occasions and kids parties. We offer music, DJ, bar, drinks and entertainment services.

Our pop-up bars are customisable with the option of adding your logo or the name of your event to the front. Depending on the size of event, our bars can be fitted together, and we offer the option of bar staff and servers. We provide events with a fully stocked bar with the option for a bespoke drinks menu of alcoholic or non-alcoholic beverages.

Our custom-built DJ booth is fitted with a state-of-the-art sound system and we work with event organisers and hosts to ensure the music reflects the feel of the event. We have DJ and music packages available and offer the option for Designer Events to host the event.

Alongside our music and bar packages we can also offer entertainment services. As with everything we offer, the entertainment options are tailored to each event and range from cocktail masterclasses to team building to games for kids parties.

COULDN'T RECOMMEND THIS SERVICE ENOUGH! FULLY COMMITTED TO MAKING SURE EVERY SINGLE PERSON HAS A GREAT TIME

WEDDINGS

THE FULL WEDDING PACKAGE

The Full Wedding Package includes our bar, all drinks and music. The full wedding package can be hired for daytime, evening or both, and there is an added option of DJing.

The drinks menu can be designed by the bridal party and we have the option of champagne reception for guests. Our bars can be extended allowing us to serve high volumes of guests.

We take into account the type of wedding and adapt the music to ensure we echo its feel and style. Designer Events can work alongside other entertainment such as ceilidh bands to ensure seamless transitions or we offer the addition of singers and musicians.

We will ensure the drinks flow, the music plays, and the dance floor is full until the end of the night. And promise to make each wedding truly unforgettable!

BEFORE THE CEREMONY

Our Before the Ceremony Package is held where one or both of the bridal parties are getting ready. Our package is tailored to the requirements of the bridal parties and we can offer bar, drinks and music or specific elements only. Our custom built pop-up bar and speakers can be set-up indoors or outdoors, allowing us to keep guests entertained in the grounds of the wedding venue. Music and entertainment will be agreed beforehand to ensure the same feel as the wedding.

EVENING DJ PACKAGE

The evening reception is arguably the most important part of a wedding as all of the bridal party's family and friends join together to celebrate the newlyweds. We'll create an electric atmosphere with our modern, bespoke DJ booth and state-of-the-art equipment. The music will be agreed beforehand with the option of designing the package with additions of a singer and musician. We ensure every single guest has an amazing time and the wedding is unforgettable!

ADD-ONS

HIRED HELP

We offer the option of Designer Events staff with all of our packages. Whether events need people to serve drinks, canapés or something else our professional and personable staff are perfect. If an event has its own alcohol our glassware and cocktail equipment can also be hired.

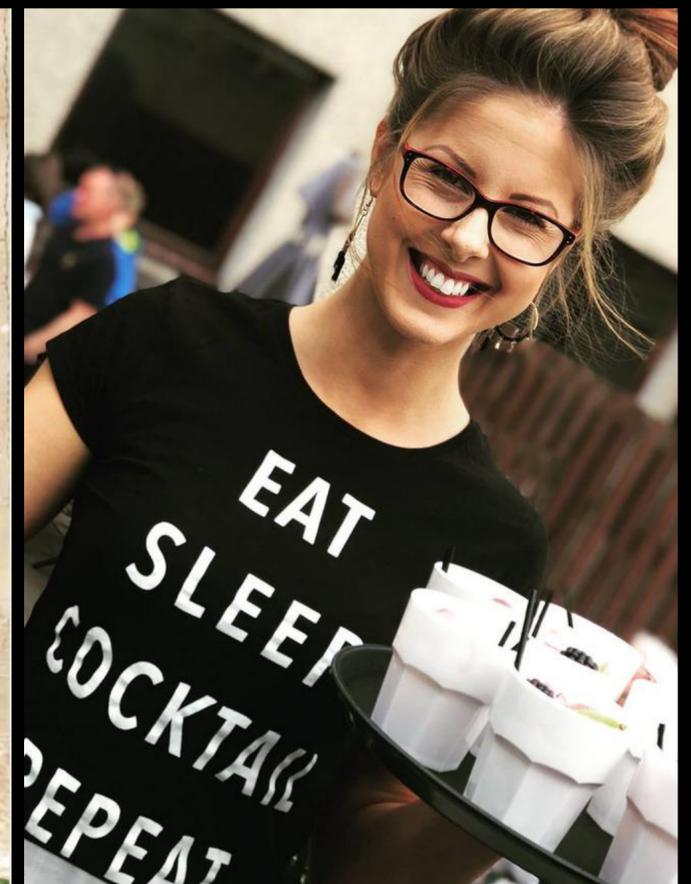

CUSTOMISABLE BAR

Our bar fronts are customisable, and we offer the option of having a design made for specific events. During the initial consultation with event organisers we will discuss all aspects of the event and whether a custom bar front will be required. After understanding the look and feel of the event we will work with our design team to produce designs unique to each event. The custom bar front gives an event that little something extra and is great for photographs.
